

THE SCOPE - MARCH - APRIL

MARCH-APRIL 2017 BY **PATSY BENNETT**, AUTHOR OF **ASTROLOGY: SECRETS OF THE MOON**

ARIES

THE revitalising Aries New Moon late March will feel reinvigorating after the stop-start feeling earlier in the month. You'll enjoy juggling various activities but must guard against exhaustion. You are a powerhouse, but with Venus retrograde, it's time for self-nurturing. Romance will step up a notch mid-April; singles may meet a keeper, but all Rams must avoid conflict then.

TAURUS

VENUS, your sign's ruler will be retrograde until mid-April, suggesting a period of reflection will prevail behind the scenes over the next two months, as you consolidate events in February. But make no mistake, there is a proactive element to the next two months too, largely revolving around getting up to date, not only with those you love, but with your own plans, too.

GEMINI

AN unpredictable character in your environment will respond to a gentle and proactive approach, rather than an aggressive stance, so take things easy early in March to see projects and dynamics through to their best conclusion. An ideal situation to do with study, sport, travel or legal matters will reveal a practical way to get ahead with your ventures and interests.

CANCER

YOU'LL begin to feel increasingly settled as your plans begin to take shape in March, after a restless or erratic phase. Mid-March will provide insightful financially, and events will propel you towards an agreement that could open doors, especially if you avoid stand-off conflict then. Prepare to build stability in your life as events in April will support your efforts.

LEO

THE next few weeks will offer you the chance to re-evaluate an important area of your life, specifically an area you share, such as your home space, financial duties or commitments. You may feel like charging ahead in these areas, but quiet contemplation rather than impulsive decisions will work better for you in the long run. Build strong foundations first.

VIRGO

FOCUS on boosting health and fitness in March. It's also a good time for de-cluttering and a Spring clean. An emotional cleanse will be invaluable too: let go of emotions, such as anger, that no longer serve a higher purpose. Get set to be bold with your statements, plan financial progress, but avoid gambling. Someone may need your help or will have a healing influence.

LIBRA

A SURPRISE, the chance to heal, and the opportunity to forge ahead with your ventures especially in connection with groups and friends, will all feature in March and April. A turning point will arise mid-April, especially to do with a health or work matter. Someone who is unpredictable will behave true to form, but you will be able to work with this – as opposed to against it.

SCORPIO

APPROACH a stop-start atmosphere in your daily routine patiently; avoid tempers and stick to your plans, and you should manage to implement your ideas well. Early April will be an especially good time to expedite exciting plans. Just exercise your due diligence and you should excel. The end of April will prove to be revitalising in your partnerships, business and personal.

SAGITTARIUS

SATURN in your sign will make an increasingly productive link with Uranus over coming months, providing you with the opportunity to boost your sense of self; your contentment in life and prospectively also your sense of stability. This will occur in unexpected or unusual ways, so be prepared to think 'outside the box', as you build a solid, but inspired way forward.

CAPRICORN

WHILE you're known as steadfast you too, can feel agitated. Luckily the sense of intensity and restlessness left over from February will diminish as a new, more grounded approach to a circumstance permits you to move ahead with more direction. Avoid conflict mid- and end of March and mid-April. Be open to a new approach to an old situation; and to new opportunities.

AQUARIUS

A TRIP to an old haunt may bring back more than memories; you may reconsider how you see yourself, your values, and someone else. You'll appreciate the chance to build solid foundations in relationships, and you may face some truths. Whether you do this through travel, spirituality, sport or study, you'll feel all the wiser for it. Take the time to ensure your finances are healthy.

PISCES

THIS is an excellent time to consider how far you've already come this year, and to make tracks to make the rest of the year equally as dynamic. If your year has started slowly, now is the time to get things back on track by going over old ground, especially regarding finances and your love life. Both of these areas should be looking up towards the end of April, if not before.
