### LIBRA

SEPT 24TH- OCT 23RD

You're entering a fresh, transformative chapter; you'll feel compelled to make important changes which will affect the rest of 2014. You'll revitalise your personal life through a change of location or new circumstances. You may need to adapt to someone's unpredictable timetable or mood swings mid-December, but this will pre-empt a breakthrough as you begin 2015.

### SCORPIO

OCT 24TH- NOV 22ND

The solar eclipse on October 24 will encourage you to look at new ways to get ahead, especially in your personal life. Work and/or health should turn a corner. Decide how you'd like to move forwards, ideally; and what your goals are, as you may need to make a tough call regarding a particular agreement. Your finances will benefit from an overhaul to help manage commitments.

### SAGITTARIUS

NOV 23RD- DEC 21ST

Proactive Mars in your finance sector for most of November could spell a marvellous boost to your bank balance; but also the chance that you'll overspend, so you'll do well to take special care financially at this time. A health or a work matter could turn a corner and you'll enter the festive season with wind in your sails, to enjoy a sociable and fun-loving end to the year.

### CAPRICORN

DEC 22ND- JAN 20TH

Your home life will be in the spotlight for the next few months. So much revolves around this important area of your life and your decisions will reflect how much you value being settled and nurtured. Luckily, a breakthrough is possible, which could spell a more stable phase. Mid-December will mark a turning point which will highlight your priorities for the near future.

### AQUARIUS

JAN 21ST- FEB 19TH

You'll feel proactive, curious and revitalised by new interests, groups and people who will strike a chord in your imagination and your heart. Look outside the box over the next few months and as you move into 2015. Will you move forwards or dig your heels into a situation which has, truthfully, run its course? Pace yourself: Christmas cheer could begin early in December.

### PISCES

FEB 20TH- MARCH 20TH

It's full-steam ahead for the next few months, as your career, status and general direction gain traction. And, if matters seem stuck in the mud in November, rest assured these should move forward by the end of the month or early December, especially if you're willing to cut your losses if necessary. Avoid dragging dead wood into 2015 by being decisive and proactive now.

### ARIES

MARCH 21ST- APR 20TH

Get set to take dramatic steps forward over the next few months; you may even achieve a long-term goal. Collaborations and a fresh financial chapter suggest a business or work-related venture could be ideal, especially if you're careful with contract details. Adventure, travel and your favourite activities will appeal. Plan to do something unique and you could even excel.

### TAURUS

APRIL 21ST- MAY 21ST

The Taurus Full Moon on November 7 will revitalise your personal life, your appearance and wellbeing; and the stars will support your efforts to improve health and fitness now. Abundant Jupiter in your family and property zone will spotlight your creature comforts in December, which you'll enjoy; and resolutions for 2015 could even turn out to be life-changing.

### GEMINI

MAY 22ND- JUNE 22ND

This will be a busy time for you, so it's important to have a long-term plan and to see your life as an upwards curve; it'll only get better as a result. Believe in yourself and don't accept less than you're worth, but maintain realistic expectations too. A new work initiative could be ideal and may provide stability, especially if you negotiate well. You'll feel motivated to enjoy life more.

### CANCER

JUNE 23RD- JULY 23RD

New developments with family or property may involve careful negotiations or talks to ensure everyone is on the same page and that volcanic tempers or emotions are kept in check, especially in November. December will bring ideal circumstances for work and health initiatives, as you'll gain ground in both areas. Aim for more stability at work and better health in 2015: it's within reach.

### LEO

JULY 24TH- AUG 23RD

November could present a turning point, especially if you focus on creating feel-good vibes, both for yourself and for those you care about. December's stars will pinpoint differences of opinion or unfairness in agreements which will merit carefully ironing out. And, as you enter 2015, get set for changes at home or with family; although you'll enjoy some seasonal cheer first.

### VIRGO

AUG 24TH- SEPT 24TH

The next few months are all about relationships; and specifically about how you share, care and divide assets, duties and time. A financial matter will gain ground towards the end of October and early November. Ensure you avoid a personality clash mid-December. A nostalgic feeling towards 2015 could include a visit to an old haunt, and set the stage for reunions and jollity you'll delight in.
